Reference Letter

We hereby confirm that PGM Expertise & Solutions Sp. z o.o. provided us with comprehensive services related to DigSilent Power Factory simulations and analyses for Pavilosta 330 MW Wind Farm (PPM type D).

The scope of work included the creation of multi-variant wind farm simulation models, conducting analyses for reactive power compensation, and preparation of the final reports. The analyses were carried out in accordance with the requirements of EU Commission Regulation 2016/631 of 14 April 2016 (NC RfG).

The cooperation with PGM Expertise & Solutions Sp. z o.o. was of a high standard – reliable, professional and fully committed. Particular recognition should be given to the quality of the services provided, which meet the highest industry standards.

PGM Expertise & Solutions Sp. z o.o. is a trustworthy partner, whom we fully recommend for projects requiring advanced knowledge and experience in the energy sector.

On behalf of SIA "K2 projekts"

member of the board

Agris Kalniņš
